

United International University

LETTER OF RECOMMENDATION

I have known Nusrat Jahan Bably as a student of the Department of Computer Science and Engineering at United International University during her undergraduate studies. As the Head of the Department, I had the opportunity to observe her academic progress, conduct, and overall involvement in academic activities over the years.

Nusrat Jahan Bably is a sincere, disciplined, and academically capable individual with strong dedication toward learning and self-improvement. Throughout her undergraduate studies, she consistently demonstrated intellectual curiosity and a genuine interest in emerging areas of Computer Science, particularly Artificial Intelligence, Data Science, and healthcare-related technologies.

She possesses strong analytical and problem-solving abilities and approaches challenges with logical reasoning and patience. Her academic consistency, determination, and commitment are reflected in her outstanding CGPA of 3.90/4.00.

Bably communicates effectively with faculty members and peers and maintains a respectful and cooperative attitude in both academic and professional settings. She contributes positively in collaborative environments and demonstrates the ability to work efficiently both independently and as part of a team.

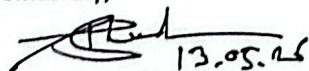

In addition to her academic performance, she served as a Teaching Assistant in both the Computer Science and Engineering and Data Science departments, where she demonstrated responsibility, professionalism, mentoring capability, and effective communication skills while assisting and guiding students academically.

Beyond her technical strengths, she is a thoughtful, empathetic, and creative individual with excellent adaptability and interpersonal qualities. She demonstrates a balanced combination of intellectual curiosity and emotional maturity, which enables her to work effectively in diverse environments.

I firmly believe that Nusrat Jahan Bably possesses the academic capability, professional potential, research aptitude, and personal integrity required to succeed in challenging academic, research, and professional environments. Furthermore, I am confident that she will make meaningful contributions to technology, research, and society through her future endeavors.

Therefore, I strongly recommend her for academic opportunities, scholarships, research programs, internships, and professional roles without hesitation.

Sincerely,

Dr. Suman Ahmmed

Head & Associate Professor, Department of CSE & Director, CDIP
